better

# The **perfect cleaning duo** for professionals

Pair the **co-botic 1900** with the **i-move 2.5B**, and you unlock a cleaning workflow that's faster, smarter, and truly uninterrupted. While the co-botic 1900 takes care of floor areas on its own, the i-move 2.5B lets your team tackle stairs, ventilations, and above floor surfaces at the same time.

Because both machines run on i-power batteries, you can easily swap and share power, keeping every part of the job moving without downtime.

**Help your team  
clean more efficiently  
at every site.**

### **i-move 2.5B**

Cordless agility and lightweight design for total freedom of movement.

## **Key features and benefits:**

- New and improved design with enhanced suction performance
- Powerful suction and H11 filter for deeper cleaning and excellent results
- Swappable batteries and replaceable parts for eco-friendly longevity
- Adjustable harness and hose for a customized fit and improved ergonomics
- Ideal for hard and soft surfaces, in small spaces and for all users

### **co-botic 1900 Drop & Go**

Autonomous vacuum cleaning with the press of a button.

## **Key features and benefits:**

- Powerful industrial-grade suction and self-leveling brushes deliver a more consistent cleaning result
- 2L anti-mold dust bin with HEPA 11 filter resulting in less emission
- Laser navigation for precise guidance and mapping
- Swappable batteries and replaceable parts for eco-friendly longevity
- Rotating side brush for edge cleaning
- Ideal for hard and soft floors, even in obstructed spaces

### **co-botic 1900 Pro**

Autonomous charging and vacuuming according to your preset schedule.
